# HIMANI VOHRA

Internship in Tech Field (technical writer)

## PROFILE

I am a multipotentialite undergraduate 2nd year student studying computer science who is currently honing her skills and pursuing her interests in a certain field along with a number of other hobbies.

I learnt front-end web development and am conversant in C and C++ as well.

I normally research any area that interests me, and right now, I'm researching ethical hacking.

Additionally, I enjoy engaging in inter- and intra-university events related to my hobbies of public speaking, content writing, poetry, and drawing.
Finally, I have demonstrated leadership abilities by serving as the class representative of my class in university.
